

# Mushroom Film Packages

preserve freshness and shelf life

a specially designed mushroom film for high-speed automatic wrapping machines

**Filmco**

## Clearly the Film to Pick for Fresh Mushroom Packaging

- **Excellent Machinability**  
with dependable performance on high-speed wrapping equipment for efficient mushroom packaging
- **Easy Stretch**  
for quick wrapping of any size mushroom container
- **Fog free package**  
through special condensation reduction film that maintains high gloss and excellent clarity
- **Optimal Shelf life**  
so mushrooms won't discolor through distribution and display
- **Printable Film**  
available with or without drilled holes

# Soft-stretch mushroom film

maintains freshness longer and performs  
trouble free on high-speed equipment

## LINPAC

Founded in 1959, today the LINPAC Group is a 2.2 billion dollar, privately owned, global business providing innovative packaging solutions across a wide range of markets including: food producers, packers, retailers, caterers, fast food chains, automotive parts, environmental products, RFID identification and materials handling.

LINPAC is the largest manufacturer of PVC food-grade stretch film in the world. Our global aim is to achieve the highest standards in performance:

- ensuring total customer satisfaction
- promoting product quality excellence
- anticipating future needs

We lead the market in plastic and film technology innovations

focused on source reduction and reuse while enhancing film performance, improving product machinability and delivering more attractive packaging for our customers and their markets.

All our operating sites are committed to conserving resources, reducing energy consumption, minimizing emissions to air, water and soil while complying with all relevant environmental legislation, exceeding those standards where possible.

## Mushroom Essentials

Filmco mushroom film clears the fog on choosing the film that works best on all types of packaging equipment. Specifically designed to be easily machinable, the special material is soft and stretches easily, quickly overwrapping any size container of fresh mushrooms. The film's strong heat-seal properties keep the package intact throughout the entire distribution cycle.

Filmco Mushroom Film reduces condensation within the package so that mushrooms won't discolor and instead, retain their fresh appeal much longer than with ordinary wraps. Packages stay fog free, maintaining high gloss and excellent clarity from the terminal to the consumer's refrigerator.

Filmco Mushroom Film, available on 3-inch and 6-inch cores, may be printed easily with brand identification. Available with or without perforations.

- Enhanced machinability
- Soft and stretchable for quick overwrapping
- Strong heat-seal properties
- Reduced condensation to maintain fresh mushrooms
- Drilled and undrilled rolls
- Available for printing
